# The **SCIENCE** of Amare EDGE

Amare EDGE is an all-natural nootropic that supports motivation.

## What is a nootropic?

**Nootropic** (noun)

no·o·tro·pic | \nō-ə-'trō-pik\

Also known as “smart drugs” or “cognitive enhancers,” nootropics are supplements, and other substances that have a positive impact on mental skills. They might improve cognitive function, particularly executive functions, attention, memory, creativity, or motivation, in healthy individuals.

## How does it work?

Amare EDGE is the only product bringing together 3 unique botanicals – from Africa, Asia, and Central America – to address one of today’s most compelling consumer demands – languishing.

**Mango Leaf** (Africa) is high in anti-inflammatory xanthenes that provide immediate mental flow while improving both psychological motivation and physical performance.

**Lychee Fruit** (Asia), is rich in bioavailable polyphenols that aid body and mind endurance and improve glucose metabolism.

**Palm Fruit** Bioactives (Central America), sourced exclusively from sustainably-harvested palm fruit, is high in unique water-soluble shikimic acid flavonoids. Working with scientists from MIT, we found PFB to improve neurotrophic factors (BDNF) which promotes neuron regeneration, neurotransmitters (dopamine), mood, and microbiome balance.

Together these ingredients support increased motivation and energy, and make up our **Amare EDGE Proprietary Blend**.\*

### SUPPLEMENT FACTS

Serving Size: 1 Stick Pack (3 g)  
Servings Per Container: 30

Amount Per Serving	%DV*	Amount Per Serving	%DV*
Calories	0	Amare Edge Proprietary Blend	200 mg †
